Design Yourself Interiors Furniture Templates

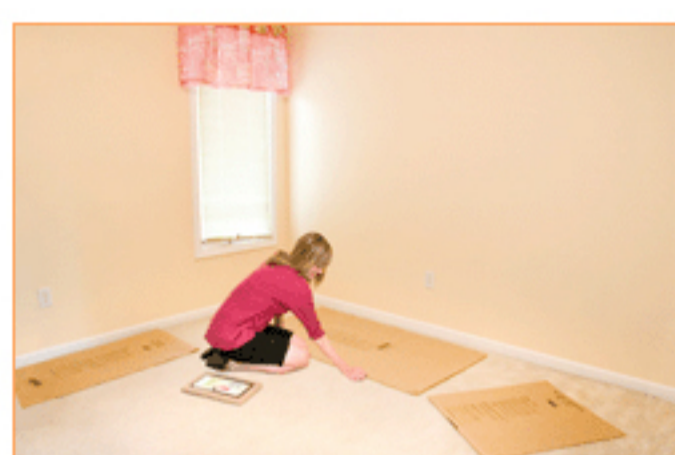

The best laid plans.

When space is tight, planning furniture layout in the nursery is essential. This especially is true when furniture lead times are 14+ weeks.

We found these life-sized furniture templates by Design Yourself Interiors. The Baby Spaces templates offer actual footprints of a crib, bassinet, changing table, dresser, and glider/rocker so you can layout the nursery before you put in your furniture order.

We did it the old-fashioned way - tape measure and graph paper. Others used painter's tape to outline the furniture footprint or cut their own templates.

But we can see how these pre-cut templates are convenient when you are deciding between different layouts and want to swap things around easily.

For \$19.99, it may be worth it to some. Available [here](#).
